

The AllCare Alliance is a diverse group of local, state and national organizations supporting public policies that assure comprehensive, high quality and affordable health care for everyone. Between 3 and 4 million Californians, including US citizens and undocumented residents, will lack health insurance even after full implementation of the Affordable Care Act, and millions more struggle to pay for care even with insurance. ***The solution lies in building on the Affordable Care Act to establish a publicly-financed California program modeled on “Medicare for All,” that serves us all for life.***

Joining the AllCare Alliance is simple. And it costs you nothing! Here's how to stay informed and connected to the California healthcare equality movement:

- Approve our Endorsement language, as an organization:
We believe everyone is entitled to high-quality, affordable, comprehensive health care. We support the establishment of a publicly financed single-payer healthcare system in California and the nation.
- Permit us to list your organization as a partner on our website.
- Identify an organizational representative with whom we can share upcoming events and news.
- When and if you choose, get involved by signing letters of support, participating in letter-writing campaigns, rallies, and/or legislative visits. *Your organization's participation is always voluntary.*
- Together, we can support wellness and healthcare equality for our families and communities!

For a copy of our endorsement form or if you have more questions, please contact Georgia Brewer, State Coordinator: georgia@allcarealliance.org
